This conservation district grant project is sponsored by the Yuma County Conservation District with funds from the Colorado Department of Agriculture through the Colorado State Conservation Board and is designed to assist with windbreak tree dripline improvement projects specifically to help with natural resource conservation in the YCCD.

Grant Uses:

Funds can be requested by landowners for materials needed to create or improve windbreak trees that are currently being planted or have been planted within the past FIVE years. Water MUST be provided by the producer to the edge of the windbreak. The projects are to include the installation of dripline with emitters and other necessary supplies.

Appropriate expenditures of funds may include the purchase of dripline, emitters, connectors, filters and other necessary supplies to water windbreak trees. All materials must be new. The YCCD offers dripline supplies and dripline for sale.

Matching Funds and Amounts:

The maximum amount for each grant is \$500. Grants require matching funds amounting to 50% of the grant total.

Judging Criteria:

The Windbreak Tree Dripline Improvement Matching Dripline Improvement Matching Grant Project is non-competitive in nature. Matching grants are given on a first come, first-serve basis, with applications due March 31, 2022, with projects beginning the end of April and should be concluded by the end of September 2022.

Applicant Responsibility:

Once the grant is approved, the YCCD must receive before and after photos of the project for promotion of the grants program.

Copies of paid receipts for purchased materials must be submitted to the YCCD by the end of September 2022. Permission to purchase materials other than those specified in the application process must be requested from the YCCD

Grant funds may be revoked if the applicants do not meet their responsibilities or requirements of this program.
